

The Painted Sky Resource Conservation and Development Council (RC&D) was founded on the premise of the watershed being the logical basis for resource management. We are a 501-C-3 non-profit organization and operate under a MOU between the USFS and NRCS. A cooperative project is currently being developed between the Grand Mesa, Uncompahgre and Gunnison National Forest and the RC&D to address the water issues on a Gunnison and San Miguel Watersheds, which encompasses most of the land area served by Painted Sky. Further information on this project is available from Rick Isom, Acting Coordinator at [Rick.Isom@r2\\_gmug@fs.fed.us](mailto:Rick.Isom@r2_gmug@fs.fed.us) Painted Sky is dedicated to addressing resource issues on a watershed basis. If we can be of assistance please let us know. Nels Werner, President Painted Sky RC&D Council 2250 US Hwy 50 Delta, CO 81416-2485
